

Milk Hoses / PVC / NBR Rubber (Soft Vacuum Air Tube)

Uniflex
Worldwide Products Innovation

Applications

Vacuum Hose is great with all brands of milking equipment.

- Raw milk transport lines
- Dairy processing

Supply air transport and provides an easy fluid flow within the milking process.

Properties:

Very Flexible PVC/NBR rubber tubing
High clarity tubing
Maximum resistance to clogs and kinks
Durability for long and reliable service
Vacuum pressure stability
Excellent Abrasion
Material approved for food contact according to European standard
UV- protections added
DOP Free
DEHP Free
FHTHALATE Free

Standard Color:

Black

Temperatures Range:

-40°C < Temp <80°C

Standards:

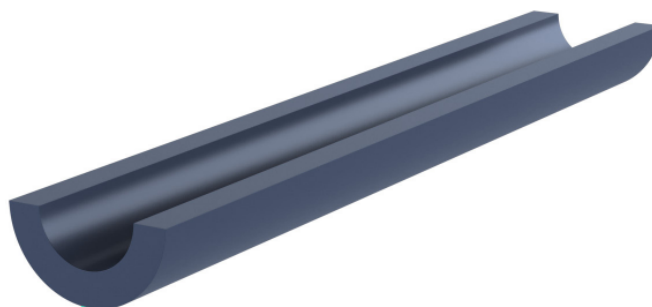

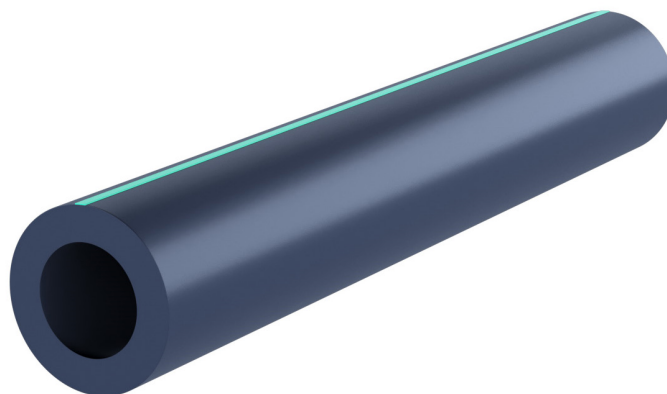

Tolerance: ISO 1307

RoHS, Reach Standard

EC food contact (EU) 10/2011 of 4 January 2011
